Project Title: Colin Kaepernick Website

I'd like to build this site as multiple pages. The navigation would probably be across the top or on the left side. I think there is enough content and photography to build out individual pages.

Home Page/Introduction – Introduce basic point I want to get across about Kaepernick's life and career. Set tone for his social activism and impact.

Early life and College career

Professional career

2016 Season and Lawsuit against the NFL

Social activism
